

Orlando Ruta

With a Master's degree in Communication and Media Cultures from the University of Turin and a background in Psychosocial Sciences, I have developed a professional identity based on contemporary art and visual culture.

During my internship at Castello di Rivoli Museo d'Arte Contemporanea, I contributed to the curatorial department for the exhibition *Ouverture 2024*, gaining practical experience in one of the most important contemporary art institutions in Italy. In addition to this I have worked in the *AADK Spain* artistic residency, where I managed visual documentation, archiving, and installation. These experiences allowed me to maintain direct dialogue with artists, facilitating their creative processes and translating their artistic ideas into curated spatial environment. I am determined to continue exploring and growing in the field of art, taking advantage of my interdisciplinary background to support curatorial and artistic realities.
