Internship at the "Interzone" photo gallery in Rome
six-month: from September 2017 to March 2018

Something about me:

I'm 25 years old and I live in Rome, Italy. My greatest passion is photography and everything related to the visual arts, much to be desired for me to become my work for life. I love traveling, I have visited many places in the world like New York, Miami, Bergen (Norway), Netherlands and I have collaborated with some world-famous Italian photographers. I have exhibited my photographs in independent galleries in Rome and I would like to try an internship experience, an assistant abroad. I speak fluent English, even in writing.

The academic path allowed me to know all the lighting styles and techniques on the set, to build a project and to run a campaign for a client. In the program I also studied movie photography and video editing.

SKILLS: Adobe Premiere CS6, Photoshop (also work on a raw file), Lightroom, Office Pack which comprises Word, PowerPoint, Excel, Outlook.

During my three year course of study, I alternated the figure of the **photographer's assistant** and the **photographer**, also a like a member of an agency. I'm very available to fast changes, I try to find an optimal solution and in the shortest time possible. I organize the work through a "work plan" that divides the day, the set, in hours: so a sto have always organized the various shoots.

It fascinates me to be able to give life to the inspirations tank to photography and the use of lights and a specially constructed set. I'm a visionary, and the camera is the tool that allows me to express what I can't communicate with words.

Thank you,

Best regards.
